

TUITION: COMPLIMENTARY

WEBINAR

The Fundamentals of *SAGITTAL FIRST*™ & Motion

Standardize, simplify, and shorten treatment time

Taught by Industry Expert
Dr. Jep Paschal

DESCRIPTION

This course is charting new territory with the ground-breaking *SAGITTAL FIRST*™ philosophy of correcting the Class II or Class III malocclusion at the beginning of treatment, when patients are most compliant.

Dr. Paschal will review how changing his treatment philosophy to *SAGITTAL FIRST* has impacted his practice and enhanced his efficiencies and outcomes. During this webinar, he will share his clinical experience with Class II and Class III cases while using *Carriere*® *Motion* appliances. Come learn about ideal case selection and have your questions addressed by an experienced practitioner when you begin to integrate *Motion* into your practice. He will also highlight his treatment successes in more advanced cases.

And finally, Dr. Paschal will demonstrate his preferred methods for finishing after achieving a Class I platform for maximum efficiency.

KEY LEARNING OBJECTIVES: At the end of this course the participant will be able to...

- Understand the protocols and philosophy behind *SAGITTAL FIRST*
- Examine Class II and Class III biomechanics with *Motion* appliances
- Recognize ideal case selection for *Motion* appliances
- Review a variety of clinical case examples highlighting finishing in braces or aligners
- Learn efficiency advancements with same day starts and decreased treatment times
- Leverage *SAGITTAL FIRST* within your practice and with your team
- Evaluate best practices and learn tips & tricks to avoid common treatment pitfalls

This webinar will be held online through the StreamYard platform.

PRIOR LEVEL SKILL / EXPERIENCE

Knowledge of orthodontic clinical foundations is recommended prior to attending this webinar.

DOCTOR PROFILE

Dr. Jep Paschal is a proud husband, father of three, a technologist, and an orthodontic futurist. He has had the privilege of lecturing all over the world helping Orthodontists learn the value of digital orthodontics, In-Office Aligner Design and Manufacturing, the *SAGITTAL FIRST* treatment philosophy, the Passive Self Ligation treatment philosophy, and the merits of incorporating technologies to compete in an increasingly corporate ecosystem. He received his BS from Emory University and his DMD from the Medical College of Georgia, completed residencies in Prosthodontics, then a General Practice Residency and his Master of Science degree in Biomaterials & Prosthodontics at the University of Texas Health Science Center at San Antonio. Dr. Paschal maintained a private practice in Prosthodontics and Implant Dentistry before returning for a residency in Orthodontics at the University of Rochester Eastman Dental Center.

Dr. Paschal has served on the Board of Directors for the American Association of Orthodontists Foundation, as President of the Georgia Association of Orthodontists, as a member and Chairman of the Council on Communications for the AAO, as a member and Co-Chair for the AAO Future Think Tank, and numerous other positions over the last 25 years. Dr. Paschal currently maintains an orthodontic practice in Madison and Lake Oconee, Georgia, USA. His hobbies include family, technology, reading, skiing, and travel.
